

AIDD COMPLIANCE TASK DELIVERABLE SUBMISSION

Item No.: **H1a.**

Due Date: **10/1/2015**

Submission Date: **10/1/2015**

Deliverable Description: Evidence of activities, process and/or procedures (with other documentation as necessary) to develop a 5 year strategic plan that addresses systems change, capacity building, and advocacy on a statewide basis

Narrative:

The attached deliverable describes the process for developing the next State Plan, which will address systems change, capacity building, and advocacy on a statewide basis. It is a counterpart to the September 1, 2015 deliverable J1a, the State Plan work plan. It was built from the ITACC "State Plan Development Resources" published in February 2015. On October 1, 2016, we will submit the results of the this planning process, including the documentation of public outreach meetings, surveys, use of available data sources, and evidence of the Council-driven state plan.

As reported in September 1, 2015, the State Council on Developmental Disabilities is currently in the process of collecting and processing data for the purpose of building goals and objectives for the next strategic 5-year State Plan. This information is derived from three primary sources: 1) statutory requirements through the federal DD and state Lanterman Acts, 2) information gleaned through the State Plan's Comprehensive Review Analysis (CRA), and 3) information solicited from citizens throughout California in a statewide survey/community meeting process.

The information solicited from citizens throughout California have been robust. While final results are not due until We are including preliminary results of

The State Plan Committee, which is the Council's vehicle for front-end work on the State Plan process, has developed a short, five- (open-ended) question survey designed to directly solicit substantive input from family, community and self-advocates, educational and/or community service providers, regional center staff and others about service, training, systemic, and/or support gaps, in regard to people with intellectual/developmental disabilities and their families. This 'plain language' survey has been translated into 14 languages (with a 15th in the process of being added), in addition to English, and is available in print (hard copies handed out to the community during Council and other community events) and in electronic form (through Survey Monkey, as posted on the Council's website), and has been used as 'prompts' in over 50 'community conversations' held throughout the state. In order to deepen the survey's reach into unserved/underserved, minority ethnic, cultural, and non-English-speaking populations throughout California, the print and electronic surveys will continue to be available through the end of the calendar year.

Our federal partners are part of each stage of this process. The UCEDDs helped design the statewide survey. The UCEDDs and P&A have helped distribute the survey and provided respondents (we have currently received over 2,900 responses). The UCEDDs and P&A have provided information for the CRA. They will continue to be part of the process through goal development and adopting the plan.

Barrier to Implementation:

None

Findings Fully Addressed

Yes: <input checked="" type="checkbox"/>	Explanation: Click here to enter text.
No: <input type="checkbox"/> (If no explain)	

Changes to Timeline:	No Changes. Delivered on time.
